

Social Sustainability

Epsten Group's social sustainability consulting services empower organizations to build equitable, inclusive, and healthy environments. Our consultants work closely with clients to provide expert guidance to achieve social sustainability goals through certifications like LEED, WELL, Fitwel and the JUST label. Tailoring strategies to meet and exceed standards, we help create fair, resilient workplaces that foster talent retention, bolster public trust, and positively impact communities. As the first JUST-labeled professional services company in the Southeast and a WELL Equity-certified workplace, Epsten Group "walks the talk," demonstrating our commitment to social equity and workplace well-being. Epsten Group delivers measurable, impactful results for clients dedicated to meaningful social change.

Services

JUST Social Justice Label

- + We guide clients through the JUST Label, a social equity standard that highlights your commitment to diversity, equity, and community impact, enhancing reputation and trust.

WELL Certification and WELL Equity Rating

- + We help you achieve WELL Certification and the WELL Equity Rating, creating spaces that prioritize health, wellness, and inclusion for all building occupants.

LEED Certification

- + Our expertise spans all LEED rating systems, including Social Equity Pilot Credits that promote socially responsible practices.

Fitwel Certification

- + Our team assists with Fitwel Certification to design healthier, more productive workspaces that support occupant well-being and engagement.

Environmental, Social, and Governance (ESG)

- + Our ESG consulting helps clients create programs, plans, and policies that enhance transparency, accountability, and social responsibility, fostering positive community and environmental impacts.
